Scan&Go: no download,  
no sign-up, zero queue

# VUSION Pay is the fastest checkout service for shoppers

No app is required, no account creation is necessary, no identification is needed. Customers must access the augmented product page, put articles in their mobile basket and scan (only the first time) their credit card with the phones' camera and select this card for all future payments, they will just need to tap the security code.

VUSION Pay is a mobile payment method for in-store purchase. It is ideal for impulse and convenience shopping (cosmetics, electronics, snacking).

## Key functions

- Add product to the mobile e-basket
- Credit card payment (information needed only once per store)
- Key function option: digital receipt (email)
- Compatible payment options:
